# NELA EP Punch

## Electronic-Pneumatic Plate Punch

- Electronic Registration
- Fully automatic Pneumatic actuation
- Hardened-Steel Punch Pins
- Compatible with Imagesetter and CTP Systems
- Programable punch configurations
- Keypad Operation or optional foot switch
- PLC Controlled

The NELA Electronic-Pneumatic Plate Punch is designed for high-volume printing environments that require exact registration and fast throughput. The Electronic-Pneumatic Plate Punch provides the ultimate in register punch technology at an affordable price.

### PRODUCT SPECIFICATIONS

(Other Configurations Available — Specifications Subject to Change)

Weight .....	up to 500 lbs. (227 kg)
Power Requirements.....	115-230 VAC, 50-60 Hz
Air Requirements .....	90-120 PSI/10 scfm (6.2-8.27 bar, 285 l/min)
Physical Dimensions .....	Width --- 48.00" (1219 mm) Length --- 43.00" (1092 mm) Height --- 52.25" (1327 mm)
Footprint with Operator.....	24 Ft <sup>2</sup> (2.23 m <sup>2</sup> )
Plate Width .....	Up to 43.00" (1092 mm)

# NELA EM Punch

## Electronic-Manual Plate Punch

- Electronic Registration
- Smooth Handle Rotation
- Hardened-Steel Punch Pins
- Compatible with Imagesetter and CTP Systems
- Optional 30° Floor Stand

The NELA **Electronic-Manual Plate Punch** is designed for printing environments that require a durable and versatile plate punch that produces stripping holes and/or press notches. The Nela Three-Point Electronic Registration System used in the Electronic-Manual sets this punch apart from the others in its class. Registration is maintained regardless of plate squareness or shape --- reliable accuracy to help minimize makeready.
